

SECTION 6-307. SIGNS.**A. Purpose.**

The purpose of this Section is to establish equitable regulations and promote excellence in design for communication through signage within the Village of Orland Park. These regulations were developed with the following intentions:

1. To preserve and promote the public health, safety, and welfare through the reasonable, orderly, and effective display of all signs.
2. To confirm that signs may cause harm to the public by creating obstructions, providing distractions to motorists, displacing alternative land uses, decreasing property values and aesthetics, and endangering the safety of person and property.
3. To establish the Village's substantial and compelling interest in regulating signs in a manner as to reduce the effects and impacts signs have on the public health, safety, and welfare.
4. To preserve property values within the Village by regulating and directing the design, location, construction, and maintenance of signs.
5. To protect the Village's physical appearance by encouraging a sense of aesthetic appreciation for the visual environment and compatibility with the surroundings.
6. To support the Village's economy by recognizing the need for adequate site identification and maintaining effective communication between signs and the public.
7. To protect the general public, pedestrians, and motorists within the Village by assuring the design, location, construction, and maintenance of signs allow safe navigation and travel throughout the Village and ensure signs do not create distractions, obstructions, and hazards.
8. To enhance the physical appearance of site identification to be in harmony with the visual character of the Village and for the signage to be an integral part of the aesthetic of the site and be cohesive with the architectural style of associated buildings.
9. To encourage signs that support adopted Village guidelines, standards, and plans or the principles within said documents.

B. Applicability.

I. Nonconforming Signs.

Signs existing at the time of the enactment of this Section, or any amendment thereto, or at the time of annexation of the property on which they are located and not conforming to the provisions of this Section, shall be regarded as nonconforming signs. Nonconforming signs shall be of two types: legal nonconforming or illegal nonconforming.

1. **Legal Nonconforming Signs.** Nonconforming signs that were lawfully permitted by the Village shall be considered legal nonconforming signs. The following activities are allowed for legal nonconforming signs and may require a permit from the Development Services Department:
 - a. **Ordinary Repair and Maintenance.** Normal maintenance and incidental repair are allowed for legal nonconforming signs, provided that any repair or maintenance shall, whenever possible, eliminate or reduce any nonconformity. The allowable scope of repair and maintenance for legal nonconforming signs includes:
 1. The replacement of non-load-bearing sign elements and electrical wiring and fixtures; and
 2. The replacing, repairing, or repainting of any portion of a sign or its structural elements, provided that the sign is not structurally altered to prolong its useful life.
 - b. **Change in Display of Sign Content.** The periodic changing of tenant's sign panels or the renewing of copy that has been made unusable by ordinary wear and tear, weather, or accident is allowed on legal nonconforming signs. All new panels within nonconforming signs shall be designed to meet current Appearance Standards per Section 6-307.F.1.
 - c. **Alteration, Enlargement, and Relocation.** Legal nonconforming signs shall not be:
 1. Changed or altered in any manner that would increase the degree of its nonconformity;

 - a. **Removal.** Illegal nonconforming signs shall be immediately removed at the expense of the owner.
 - b. **Alteration.** The owner of an illegal nonconforming sign may obtain a permit to alter the illegal nonconforming sign to conform with all applicable Village codes.

J. Severability.

If any portion of this document is to any extent invalid, illegal, or incapable of being enforced, such term shall be excluded to the extent of such invalidity, illegality, or unenforceability; all other terms hereof shall remain in full force and effect.

K. Definitions. In the event of a conflict within this Section and within Section 2-102 (Definitions) of the Land Development Code the definitions herein shall apply.

1. **Average Natural Grade:** When measuring sign height, the average natural grade shall mean the average grade measured ten feet (10') in every direction from the sign location.
2. **Frontage, Tenant:** The horizontal distance between a tenant's lease lines along a façade facing a public right-of-way, private access drive, and/or parking lot. Tenant Frontage shall not include frontage along outdoor sales areas and accessory structures.
3. **Sign:** Any object, device, display, or structure, or part thereof, which is used primarily to advertise, identify, display or direct or attract attention to an object, person, establishment, product, service, event or location by any means including, but not limited to: words, letters, figures, designs, symbols, fixtures, colors, motion, illumination or projected images, which are visible beyond the boundaries of the lot, parcel, or tenant space on which they are situated or visible from any public thoroughfare or right-of-way. This includes, but is not limited to, wall signs, ground signs, window signs, awning or canopy signs, marquees, manual changeable signs, message boards, illuminated signs, moving signs, temporary signs, portable signs, pennants, banners, streamers or any other attention-getting device, flag, or other display, whether affixed to a building or erected elsewhere on the premises. The term "sign" excludes those features of a building which are an integral part of the building's architecture, design, and structure (i.e. an "architectural feature") as determined by the Development Services Department.
4. **Sign, Address:** A sign displayed for the purpose of identifying the address of the property.
5. **Sign, Awning:** Signage that exists on an awning.
6. **Sign, Banner:** A temporary sign with or without characters or illustrations applied to cloth, flexible plastic, or fabric of any kind, with no rigid material as a backing. A Banner Sign is typically installed on the wall of the tenant space, mounted in the ground, or securely attached to an existing ground sign.
7. **Sign, Billboard:** See Off-Premise (Outdoor Advertising) Sign.
8. **Sign, Box (Cabinet):** A sign which contains all of the advertising copy within an enclosed cabinet (typically a standard geometric shape such as a rectangle) and is mounted to a wall. Box Signs have a translucent or opaque back-lit panel with sign copy enclosed within a frame or cabinet. An internally-illuminated logo separate from other sign copy shall not constitute a Box Sign.
9. **Sign, Canopy:** A sign constructed or affixed to a permanent portion of a building that serves as a canopy over the space below. A canopy is an integral part of the building that uses similar materials, whereas an awning is more temporary in nature and build.
10. **Sign, Channel Letter:** A sign comprising individual letters that are independently mounted to a wall or other surface and have a covered face with internal illumination. Channel letters may be non-illuminated.
11. **Sign, Cloud:** A sign with a single cabinet that is not a typical geometric shape but instead follows the curvature of the lettering or artwork on the sign. A Cloud Sign is distinguished from a Box (Cabinet) Sign by the shape of the sign and the outer edges forming a cloud around the lettering or artwork on the sign. Typically the background of this type of sign is non-illuminated but the lettering is illuminated.

12. **Sign, Directional:** A sign used for providing direction and navigation of a site. Such signs typically include arrows and identify locations rather than advertising copy and/or logos. Pavement markings shall not constitute a directional sign.
13. **Sign, Dual Post:** A ground sign that utilizes two posts or columns that are used to mount the sign in the ground.
14. **Sign, Electronic Changeable:** Signage that features changeable text and/or illustrations, using computer software or other technology to automate the delivery schedule of the messages.
15. **Sign Face:** That part of the sign which is or can be used to identify, to advertise, to communicate information, or for visual representation which attracts the attention of the public for any purpose. This shall include any background material, panel, trim, color, and direct or self-illumination that differentiates the sign from the building, structure, backdrop surface, or object upon or against which it is placed. This shall not include any portion of the support structure for the sign, provided that no message, symbol, or any of the aforementioned sign face criteria is placed on or designed as part of the support structure.
16. **Sign Face Area:** The entire area of a sign face measured in square feet.
17. **Sign, Feather/Flag:** A temporary ground sign typically taller than it is wide, made of non-rigid material, and attached to a pole.
18. **Sign, Flag:** A sign attached to a pole on one side of the sign.
19. **Sign, Ground:** Any sign supported wholly or in part by some structure other than the building or buildings housing the use to which the sign pertains. Ground signs shall also include monument, dual post, and other freestanding signs.
20. **Sign, Inflatable:** A sign that requires air pressure to maintain its volume.
21. **Sign, Integral:** Names of buildings, dates of erection, monumental citations and commemorative tablets or other information that is carved into stone, concrete, or similar material or made of bronze, aluminum or other permanent type construction and made an integral part of the structure.
22. **Sign, Manual Changeable:** A sign or portion thereof with characters, letters, or illustrations that can be changed or rearranged manually without altering the face or surface of the sign.
23. **Sign, Marquee:** A manual changeable sign with a surrounding cache of light bulbs. Typical marquee signage is found at the entry to theaters.
24. **Sign, Monument:** A two-sided sign attached to a permanent foundation or decorative base and not attached or dependent on support from any building, pole, posts, or similar uprights.
25. **Sign, Off-Premise (Outdoor Advertising):** A sign providing display space for general commercial advertising not related to the premises on site at which the sign is located; commonly referred to as "billboards".
26. **Sign, Outdoor Bulletin Board:** A cabinet attached to the wall of a structure at a pedestrian level for the purpose of displaying periodically-changing messages printed on paper or other similar materials inside the cabinet. Such messages may include announcements, advertisements, or information about a business such as a menu or a brochure of services.
27. **Sign, Pennant:** A series of triangular non-rigid signs that exist on a string or band.
28. **Sign, Permanent:** Any sign or advertising display composed of durable materials intended to exist for the duration of time that the use or occupant is located on the premises.

29. **Sign, Political:** Temporary signs that announce or support political candidates, parties, issues, or causes in connection with any national, state, or local election.
30. **Sign, Portable:** Any sign that is not permanently attached to the ground, a structure, or a building and which is designed to be easily transported or relocated to another location.
31. **Sign, Projecting (Blade):** A sign, other than a wall sign, which projects (usually perpendicularly) from and is supported by a wall of a building or structure.
32. **Sign, Push-Thru Letters:** A sign with individually illuminated acrylic letters and/or a logo that appear to be pushed through the sign's opaque background panel/cabinet.
33. **Sign, Roof:** A sign erected, constructed, supported or maintained in whole or part upon or above the highest point of the roof line, parapet, or fascia of the building. For buildings with a hip, gambrel, or gable roof this would be above the eave line; for mansard roofs, this would be above the deck line for the roof, and for flat roofs it would be above the edge of the wall.
34. **Sign, Sandwich Board (A-Frame):** Portable and relatively lightweight signage constructed to stand independently, not mounted or affixed to its location. This sign is fabricated as an A-frame, which is characterized by having two boards connected together at the top. The boards may have signage on one or both sides.
35. **Sign, Temporary:** A banner, pennant, poster or advertising display constructed of less durable materials and that appears to be intended to be displayed for a reasonable short or definite limited period of time. If the sign display area is permanent but the message displayed is subject to periodic manual changes, that sign shall not be regarded as a Temporary Sign.
36. **Sign, Under Canopy:** A sign that is attached to the underside of a canopy.
37. **Sign, Wall:** Signs mounted on the wall of a building that are parallel to the face it is mounted on. Wall signs may be illuminated or non-illuminated and are typically three-dimensional. Wall signs include but are not limited to sign types such as channel letters, cloud, and push-thru. Signs on canopies, awnings, and windows may also be considered wall signs.
38. **Sign, Window:** Signs or graphics with or without copy that are adhered to a window.
39. **Sign, Yard (Pin):** A temporary sign made of non-durable materials that are typically staked in the ground by metal or plastic supports.
40. **Window Display:** Graphics, digital images, or displays of products without copy located within the interior of the building that are not located on the surface of a window but are visible through a window or other opening. Window displays are used to project a message to potential outside viewers.
